THE CHARLES PROTEUS  
**STEINMETZ  
SYMPOSIUM**

UNION COLLEGE  
**MAY 8, 2026**

**UNION**  
COLLEGE  
FOUNDED 1795

AN INTERDISCIPLINARY TRADITION **AND** A CELEBRATION

**AT UNION, YOU DON'T HAVE TO  
PICK ONE THING TO BE.**

# **YOU CAN BE A UNION OF EVERYTHING THAT MAKES YOU, YOU.**

## **UNDERGRADUATE RESEARCH AT UNION**

Working closely with their professors—in classrooms, labs, studios, archives and in the field—Union students delve into topics that inspire and challenge them intellectually and creatively.

For one day each spring, the College suspends classes so that students can share their academic and creative interests and talents in the Steinmetz Symposium: a campus-wide celebration with peers, professors and families. Held annually since 1991, the symposium features an extensive array of oral presentations, posters, performances and exhibits. The day is part of Union's Recognition Weekend, which includes Prize Day on Saturday, a tribute to student achievement in all fields.

The Steinmetz Symposium celebrates a culture of personal discovery that integrates coursework, faculty mentorship and peer collaboration to deepen students' understanding of subject and self.

**"BY DEALING EXCLUSIVELY WITH EMPIRICAL SCIENCE  
AND ITS APPLICATIONS, THE ENGINEER IS LED TO FORGET,  
OR NEVER TO REALIZE, THAT THERE ARE OTHER BRANCHES  
OF HUMAN THOUGHT EQUALLY IMPORTANT AS FACTORS  
IN EDUCATION AND INTELLECTUAL DEVELOPMENT."**

—CHARLES PROTEUS STEINMETZ

The Steinmetz Symposium is named for one of the College's most renowned faculty members, Charles Proteus Steinmetz (1865-1923), who taught electrical engineering and applied physics. Also a chief engineer for General Electric Co., he was widely regarded as America's leading electrical engineer and, after Thomas Edison, perhaps the most recognized name in the field.

Among his many contributions, Steinmetz fostered the development of alternating current, which made possible the expansion of the nation's electric power industry.

A 1914 "Duplex Drive Brougham" Detroit Electric automobile that belonged to Steinmetz is on permanent display in the first-floor corridor between the Wold and Olin buildings. Steinmetz and Thomas Edison are memorialized in statues along Schenectady's Erie Boulevard.

# WELCOME

2026

## FROM PRESIDENT ELIZABETH KISS

Welcome to the 2026 Steinmetz Symposium - our 36th annual Steinmetz Day at Union College!

Of all the wonderful traditions at Union, Steinmetz Day is probably the one I have been looking forward to the most in my first year. It is so quintessentially Union for us to gather as a community to showcase and celebrate student intellectual and creative work across disciplines. Congratulations to all our speakers, presenters, and performers!

Union has been a pioneer in many ways throughout our 231-year history, and the establishment of Steinmetz Day in 1991 demonstrates that we were trailblazers in supporting undergraduate research. Moving from student to budding scholar is one of the most powerful pivots someone can make during their college journey, and it is exhilarating to watch Union students pursue their curiosity, create new knowledge, and move, literally or figuratively, from learning dance moves to choreographing them.

Steinmetz Day is made possible by Union's dedicated faculty and staff who devote countless hours to mentoring students. We are especially grateful to the 2026 Steinmetz Organizing Committee and to our Steinmetz Day lead organizers, Director of Undergraduate Research and Associate Professor of Computer Science Matt Anderson and Assistant to the Dean of Studies Ruth Cotter.

I want to give a special shout-out this year to Leah Rosen and Emily Brown of our Communications and Marketing team, who have saved the College funds and done us a great service by printing this program, and all the Steinmetz Day posters, in-house; and to Schaffer Library for hosting all our poster presentations, enabling us to showcase the great diversity of research at Union. Many thanks to all these generous colleagues!

I hope you can join us for Prize Day in Memorial Chapel on Saturday, May 9 at 1 p.m., when we will recognize students for scholarly excellence and leadership.

Warmly,

Elizabeth

# TEMPLETON INSTITUTE SPECIAL SESSION

Olin 115

Friday, May 8, 2026, 11:30 AM - 12:30 PM • Vauhini Vara

---

## The Powers of Interdisciplinary Undergraduate Research: Textual Technologies

The aim of this session is to showcase the values and benefits of cross-disciplinary research in undergraduate education at the intersection of literary studies, Digital Humanities, and Computer Science. We will explore this topic in the context of Union's liberal arts model of education, which emphasizes the technical aspects and humanist aspects of interdisciplinarity in equal measure. We will hear student perspectives on issues such as literature's contemporary interface with digital studies and investigations of Generative Artificial Intelligence through up-to-date methods in Human-Computer Interaction.

The participants have been selected by the Co-Directors of the Templeton Institute to showcase diverse views on interdisciplinary student research at the College. This event brings together short (fifteen-minute) talks on these topics, with a discussion among panelists and with the audience.

This special session will be introduced and moderated by our Steinmetz Day guest, Vauhini Vara, an award-winning author, journalist for *The Atlantic*, *The Wall Street Journal*, and *The New Yorker*, and finalist for the 2023 Pulitzer Prize for Fiction.

All are welcome to attend and join the conversation.

THE CHARLES PROTEUS STEINMETZ SYMPOSIUM  
**EVENT LOCATIONS 2026**

**P** PARKING LOT

## OUR LAND ACKNOWLEDGEMENT

We acknowledge that we live, work, and study at Union College on the traditional homelands that were originally peopled by the Iroquois Confederacy (Haudenosaunee), including the Cayuga, Mohawk, Oneida, Onondaga, Seneca, and other tribes. What we call Schenectady is a Dutch version of a Mohawk word skahnéhtati, meaning 'The Place Beyond the Pines.' As a College, we honor the land itself with gratitude and acknowledge the people who have stewarded the land, lost lives, and had their land taken unjustly throughout the ages.
